Awaken the Author Within You, Achieving Your Dreams

Reflecting on her own Author journey, as well as the dreams that others share with her about making their dreams come true, even becoming an author themselves someday, Cynthia discovered that her journey was about more than just becoming an author. Achieving this goal took insight, skills and the stamina that she learned from her life experiences, both professional and personal. *What does it take to succeed in any venture? Horse Sense, Nature's Leadership and Life Lessons

Animals and nature can teach us amazing leadership and life lessons...all we have to do is take the time to observe this pure and honest form of communication, using their "own unique language". "Throughout my books, my message and goal are for young readers to identify with real-life situations and challenges and gain a sense of strength to face the twists and turns in their lives. We learn and grow by every situation we face in life. A good goal should always be to achieve a successful result, gain wisdom and become a better person because of it."

— Cynthia A. Sudor, Author

"And so these were special times at Green Apple Acres, a magical place where adventures are always a moment away, and there are always lessons to be learned."
